Creative technologist blending high-end visual craft — 3D, motion, VFX, and brand — with practical AI and automation. Delivered VFX and 3D for nationally-aired campaigns, built Python and PowerShell pipelines that salvage unusable footage and automate production, and ship React/Tailwind web apps with AI-assisted workflows. Now deepening a hard-technical foundation with a BS in Cybersecurity (Cyber Operations) at EWU.

■ SELECTED WORK

National-brand VFX & 3D

Serta · Sleeper · PrizePicks · Squatty Potty

- Lead VFX/3D compositing for nationally-aired campaigns — screen comps, 3D animation, object replacement, ACEScsg finishing.

AI Reflection-Removal Pipeline

Python · Colab

- Integrated ERRNet & JDDNet to batch-remove lens glare, salvaging otherwise-unusable footage.

PurSteam Cinematic 3D Promos

Blender

- End-to-end launch films — custom camera rigs, high-fidelity steam simulation, ACEScsg finishing.

Windows “Recovery Toolbox”

PowerShell

- System-recovery automation suite — vetted backups with symlink-loop protection.

■ EXPERIENCE

Lead Graphic Designer · Colormatics

Sep 2023 – Jul 2025

- Promoted intern → Lead in ~7 months; led 3D/VFX for national commercials while owning web, UI, and brand for agency clients.
- Built Python / Bash / FFmpeg automation that removed repetitive post tasks and raised output quality.

Independent / Freelance Creative

Jul 2025 – Present

- Client branding (Moonlit Branding) and AI-assisted web builds, concurrent with full-time study.
