

CALEB RUBLE

Creative Technologist | Design · Motion/VFX · AI & Automation

Spokane, WA · calebruble@gmail.com · 509.960.1317 · linkedin.com/in/caleb-ruble · snvckdvddy.github.io/portfolio

Creative technologist with a background in 3D, motion, VFX, and brand design, plus hands-on AI and automation. I've delivered VFX and 3D for nationally-aired campaigns, written Python and PowerShell tools that salvage footage and cut repetitive production work, and I build React and Tailwind web apps with AI-assisted workflows. I'm currently studying Cybersecurity (Cyber Operations) at EWU to deepen the technical side of my work.

Select clients Serta · Sleeper · PrizePicks · Squatty Potty · Axiom Space · CDA Casino & Resort · Four Seasons Roofing · STCU

■ CORE SKILLS

Design & Motion Blender (Cycles/Octane/Eevee) · After Effects · 3D product viz · VFX compositing · ACEScsg · Adobe CC · Figma

AI & Automation AI production pipelines · prompt engineering · multi-modal generation · Python · PowerShell · Bash · FFmpeg · Colab

Web & Build React · Vite · Tailwind · Node · HTML/CSS · WordPress · Git/GitHub · AI-assisted dev (Cursor/v0)

■ SELECTED WORK

National-brand VFX & 3D

Serta · Sleeper · PrizePicks · Squatty Potty

- Led VFX and 3D compositing for nationally-aired campaigns, handling screen comps, 3D animation, object replacement, and ACEScsg finishing.

AI Reflection-Removal Pipeline

Python · Colab

- Built a pipeline with ERRNet and JDDNet to batch-remove lens glare and recover footage that was otherwise unusable.

PurSteam Cinematic 3D Promos

Blender

- Directed launch films end to end, from custom camera rigs and steam simulation through to ACEScsg finishing.

Windows "Recovery Toolbox"

PowerShell

- A PowerShell suite that automates system recovery, with vetted backups and symlink-loop protection.

■ EXPERIENCE

Lead Graphic Designer · Colormatics

Sep 2023 – Jul 2025

- Promoted from intern to Lead in roughly seven months; led 3D and VFX for national commercials while owning web, UI, and brand for agency clients.
- Wrote custom Python, Bash, and FFmpeg automation that removed repetitive post-production work and improved output quality.

Independent / Freelance Creative

Jul 2025 – Present

- Client branding (Moonlit Branding) and AI-assisted web builds, alongside full-time study.

■ EDUCATION, TRAINING & RECOGNITION

BS, Cybersecurity (Cyber Operations) · Eastern Washington University

2026 – 2029

AAS, Graphic Design · Spokane Falls Community College

2021 – 2023

- **Bronze ADDY Award (Student), 2023.** Frequent-C brand identity and packaging.
- **AI + Design (DESN 374), EWU.** Studio course aligned to the U.S. DOL AI Literacy Framework (TEN 07-25, 2026), built on the 4D AI Fluency model.
- **1,000+ hours** of self-directed prompt-engineering and AI-workflow practice.
